

CleanMax and Amazon sign PPA for 100MW of Wind Energy

CleanMax, one of Asia's leading renewable energy and net-zero solution provider for the Commercial and Industrial (C&I) sector and a Brookfield-backed company today announced a new Power Purchase Agreement with Amazon, which includes the development of 100 MW of renewable energy project.

This project will be connected to the national grid of India and will help meet the electricity consumption needs by Amazon's operations. CleanMax will develop and operate the wind farm, which is expected to be operational by Q2 2026, generating roughly 355 million kWh of clean electricity annually and offsetting an estimated 252,000 tons of CO₂ annually — equivalent to planting nearly 14.8 million trees.

The agreement supports Amazon's 'Climate Pledge commitment' in efforts to meet electricity needs of its operations and achieve net-zero carbon emissions across of its operations by 2040. This collaboration also underscores a larger trend of global tech companies deepening their presence, with an increasing commitment to sustainable practices and responsible corporate goals

"CleanMax is proud to be enabling new renewable energy opportunities with Amazon. As a company that has always championed sustainability, CleanMax is elated to collaborate with Amazon to help decarbonize its operations while also advancing the green energy landscape," said Kuldeep Jain, Managing Director of CleanMax.

--- About Clean Max Enviro Energy Solutions Pvt. Ltd. (CleanMax)---

CleanMax is one of Asia's leading renewable energy company in the C&I (Commercial and Industrial) sector with 2 GW of renewable assets (operating constructed capacity) with a highly skilled and professional team spread across India, Middle East, and South-East Asia.

CleanMax is a Brookfield backed company. Brookfield is a leading global alternative asset manager with over \$1 trillion of assets under management. We pioneered the 'Energy Sale' model for rooftop solar in India in 2011 and are focused on being the sustainability & net-zero partner of choice for corporates. CleanMax operates some of the best managed renewable energy assets including rooftop solar projects, solar farms, wind farms wind solar hybrid farms and has expanded its services to include renewable energy certificates as well. We serve over 400+ distinct corporates. With many responsible companies in India committing to being Net Zero by 2030, CleanMax's comprehensive solutions have helped accelerate customer's shift to clean energy. Companies across industries such as Data Centres, Textiles, Automotive, Chemicals, FMCG, Pharma, Manufacturing have increasingly relied on CleanMax as their Net Zero Solutions provider. The company develops projects on a turnkey basis, providing power on a per kWh basis, under long-term Power Purchase Agreements, at rates better than prevailing grid tariffs. CleanMax

was the first Indian company to win the prestigious Transformational Business Awards 2018 by Financial Times (FT) and International Finance Corporation (IFC) in Achievement in 'Transformational Infrastructure' category. Additionally, CleanMax has been recognized for its 'Great Indian Sustainable Performance in Net Zero' at the 3rd Edition Sustainability Conclave & Awards (2024).
